CONSENT FOR EXAMINING AND TREATING CHILDREN

Dr. Harald Gaier believes it is good practice to involve children's families as much as possible in decision-making about each child's health, and thinks it is equally important to involve children, where appropriate, in decisions about their own health.

For children between the ages of 16 and 18 years, Dr. Gaier can offer treatment without parental/guardian written consent.

Because your child is under the age of 16 years, Dr. Gaier asks that you sign this form approving examination and/or treatment for her/him.
